

Dagson Gabriel Cassiano de Araújo

Full-Stack Developer

► Profile

Full name: Dagson Gabriel Cassiano de Araújo

Github: github.com/DagsOn

Email address: dagson.g.01@gmail.com

Portfolio: dagson.netlify.app/

LinkedIn: linkedin.com/in/dagson1/

► Objetivos

I am a web systems developer focused on creating practical and scalable solutions. I am interested in front-end, back-end, system architecture, and software security. I consistently follow clean code standards and agile development processes. I am determined to participate in projects from planning to execution, emphasizing delivering results and continuous improvement.

► Professional Experience

Mar 2024 - Oct 2024 **Full-Stack Developer**

DCODING

📍 Remote

Actively worked in a startup, being responsible for the architecture and development of web applications. My main responsibilities included:

- Designing and implementing web application architecture.
- Creating APIs and services using Node.js with Express.
- Applying Bootstrap to create responsive user interfaces.

Technologies: Node.js, Express, Bootstrap, EJS, JavaScript, HTML, CSS.

► Volunteer Experience

Sep 2024 - Present **Full-Stack Developer**

STI - UFRN

📍 Remote

I am part of the development team for the Multiprova platform, a system for managing and applying academic tests used by teachers and institutions. My main activities include:

- Implementing front-end and back-end features.
- Fixing bugs and optimizing code to improve the system.
- Solving user-reported issues.

Technologies: ReactJS, NodeJS, Loopback, GoLang, MongoDB, Docker, Scrum.

► Education

Federal University of Rio Grande do Norte (UFRN)

Bachelor's Degree in Information Technology (2023 - Ongoing)

Federal Institute of Rio Grande do Norte (IFRN)

High School Technical Program in Informatics (2019 - 2022)
